## Elementary Science Program 2009-2010

### Topic Descriptions

1st Quarter:

**August 26 – Sept. 16**—Magnetism

Discover the properties of magnets, and what materials are used in making magnets. Explore how magnets and electric current work together.

**September 23– Oct. 14**—Electricity

Investigate each component of electricity and how each part is necessary to have electricity. Build different types of circuits and study the features of each.

2nd Quarter:

**October 21 – Nov. 11**— Systems of the Human Body

Study the anatomy and function of the circulatory, digestive, respiratory, and excretory systems in the human body.

**November 18 – Dec. 16**—Invisible Things

Observe the smaller than the eye can see creatures and discover their functions that God has designed.

### Topic Descriptions

3rd Quarter:

**January 13 – Feb. 3**—Alternative Energy Sources

Wind, Water, Sun, and Radioactive Materials will be investigated as sources to produce energy.

**February 10 – March 3**—Ice Age Creatures/ Sharks

Investigate the animals of the Ice Age. Are any of these animals alive today?

4th Quarter:

**March 10 – March 31**—Wetlands of Florida

Study the wetland ecosystem of Florida and its inhabitants. Find out whether other ecosystems exist throughout Florida

**April 14 – May 5**—Ocean Life Study the creatures of the ocean. Discover God's special design of ocean creatures.
